

# FM Approval Certification Mark Error on I-P and V-P Transducers

## Key Words

- CSA/ CUS certification mark
- Current-to-Pressure Transducers
- Voltage-to-Pressure Transducers

## Purpose

From January 28, 2010 through June 27, 2011, Thermo Fisher Scientific manufactured and shipped Current-to-Pressure (I-P) and Voltage-to-Pressure (V-P) Transducers that were incorrectly labeled with the FM Approval certification mark. The instruments should have been labeled with the CSA/CUS certification mark. The affected transducers were privately labeled for Action Instruments. All Thermo Scientific branded I-P and V-P transducers manufactured during this same time frame were correctly labeled with the CSA/CUS mark.

## Products Affected

Products shipped with the FM Approval mark included:

- Action Instruments IP51-2000
- Action Instruments IP51-3000
- Action Instruments IP51-3000-F
- Action Instruments IP51-4000
- Action Instruments IP61-3000

This error does not affect the Safety Rating of the instrument. The Hazardous Area Classifications are listed under CSA/CUS Master Contract No.161704, Certificate No. 1108163, Project No. 2422233.

Customers who received the affected product and would like to receive a copy of the CSA/CUS certificate may do so by contacting Thermo Fisher Scientific Technical Support at +1 (800) 437-7979 or by email at [techsupport.process.us@thermofisher.com](mailto:techsupport.process.us@thermofisher.com). The serial number of the instrument must be included with the request to validate applicability.
